

# LOGGING WORKER CREDENTIAL

## About Us

ForestryWorks® is a collaborative effort by the Forest Workforce Training Institute and industry members to create a pipeline of qualified workers for the forestry and forest products manufacturing industry for generations to come. We educate students, parents, and teachers about career opportunities in the forest industry while providing pathways for students and job seekers to start their future career in the industry.

## Coming Soon

The Logging Worker Credentialing Program will be available to students in 2025. Each of the 10 modules have been researched and developed by the ForestryWorks® team and approved by industry partners. Students are able to earn this **industry recognized credential** and begin work in entry level positions within the logging sector.

## Industry Partners

- ✓ Warrior Tractor
- ✓ Alabama Loggers Council
- ✓ Kennedy Logging
- ✓ F&C Logging LLC
- ✓ ACCS
- ✓ Potts Logging, Inc.

### Logging Safety

Personal protective equipment, OSHA and creating a culture of safety.
