

SAWMILL WORKER CREDENTIAL

About Us

ForestryWorks® is a collaborative effort by the Forest Workforce Training Institute and industry members to create a pipeline of qualified workers for the forestry and forest products manufacturing industry for generations to come. We educate students, parents, and teachers about career opportunities in the forest industry while providing pathways for students and job seekers to start their future career in the industry.

Coming Soon

The Sawmill Worker Credentialing Program will be available to students by the end of 2024. Each of the 10 modules have been researched and developed by the ForestryWorks® team and approved by industry partners. Students are able to earn this **industry recognized credential** and begin work in entry level positions within the sawmill.
